President Hoover And Congress At Odds On Public Work Plan

Senate Resumes Debate On  
Wagner Bill Appropriating \$2,000,000,000

WASHINGTON, June 20.—The legislative campaign for enactment of unemployment relief measures was speeded today with the result that a climax soon may be reached in both branches of congress.

As the campaign proceeded, a conflict between President Hoover and congress appeared inevitable on the question of a public works plan to create jobs for the relief of unemployment.

Although both Republican and Democratic leaders in the senate were bending their energies toward a compromise program that will be acceptable on all sides, marked differences have arisen which threaten to dissipate this hope.

The senate resumed debate on the \$2,000,000,000 Wagner bill, which contains a half billion dollar bond issue for public works to which President Hoover has objected.

The Garner program, including \$1,200,000,000 of public works, also is before the senate.

A marked gain in sentiment for the Wagner bill, with modifications, foreshadowed passage by Tuesday night.

Before a final vote is reached, however, the senate will be confronted with a showdown on the proposal of Senator LaFollette (R) of Wisconsin for a \$5,500,000,000 bond issue to put men to work.

Resignation Effective On  
August 1, Rev. Landis  
Tells His Flock

REV. G. M. LANDIS

After having served the congregation the past seven and one half years as spiritual leader, Rev. G. M. Landis gave his resignation to the congregation of the First Baptist church Sunday morning.

The resignation came as a distinct surprise to the congregation, and the members were deeply shocked.

The resignation will be acted upon at the first congregational business meeting, which will be held in the near future.

**Pastor's Resignation Statement**  
His resignation was as follows:  
To the First Baptist Church:  
After much earnest prayer for the guidance of the Holy Spirit, and after much careful consideration of the many issues involved, we have finally come to the inescapable conviction that we should resign the pastorate of this church, such resignation to take effect the first of August.

Seven and a half years of sojourn and service in your midst have forged chains of Christian attachment which are not easily broken. Frankly, this is the hardest decision we have ever felt it necessary to make, and we have not been hasty in making it. It has certainly not been (Continued On Page Two)

### Mack To Nominate Governor Roosevelt

ALBANY, June 20.—Governor Franklin D. Roosevelt has turned to his political godfather and "old friend and neighbor," John E. Mack, of Poughkeepsie, to nominate him for the presidency at the Democratic national convention in Chicago next week.

Mack, a former supreme court justice and one of the attorneys in the famous James A. Stillman divorce case, was responsible for Roosevelt's first venture into politics 22 years ago.

He nominated Roosevelt, then a senator at the Democratic state convention in 1911.

In a brief statement formally announcing his selection of Mack as his nominator, Roosevelt wrote: "I am very happy that my old friend and neighbor, John E. Mack, has been good enough to say that he will make the nominating speech in my behalf at the Democratic national convention."

"Aside from my close association with him, covering a period of 25 years, it seems to me very fitting that the man who, in 1910 placed me in nomination for the first office for which I was ever a candidate, should once more act as my sponsor."

### Baer And Eroo Going To Chicago

New Castle Men Are Alternating Delegates To Democratic Session

JAVENS AND WILSON  
TO BE DELEGATES

When the Democratic national convention opens in Chicago on June 27, the 26th congressional district, which is composed of Lawrence, Beaver and Butler counties, will be represented by John K. Javens of Rochester, John Wilson of Butler as delegates and Attorney Wilbur J. Baer and W. J. Eroo, Jr., of New Castle as alternates.

Mr. Baer, who is also the state committeeman of the Democratic party for Lawrence county and Mr. Eroo will be accompanied by Ted Higgins, who plans to attend the convention also. The three men will leave here by motor on Saturday, June 25. The two delegates will probably go by train.

Like the Republican convention, the question of prohibition will be an issue in the Democratic convention. The indications are that the Democrats will incorporate a direct "repeal or retention" plank in their platform.

Although the Pennsylvania delegation is split in its choice for president, the delegates of the 26th district are for Franklin Roosevelt. Under the unit rule of the Democratic party, state delegations cast their ballots as a unit so that the Pennsylvania vote will be decided in caucus.

(International News Service)  
MEXICO CITY, June 20.—Although extensive damage resulted from Saturday's countrywide earthquake shocks, the casualty list was reported extremely low, due, mostly to precautions inhabitants had taken since the tremors of June 3.

Two were killed in the city of Colima, State of Colima, and ten were injured. No other deaths were reported, while the injured were believed to have been confined to a few scores throughout the west coast.

Damage was placed at \$2,000,000 in the city of Colima alone.

# SAYS STATE DELEGATION FOR REPEAL

## State Chairman Forecasts Stand

"Roosevelt And Repeal" To Be State Democratic Delegation's Stand

### VICE PRESIDENCY CHOICE UNCERTAIN

By SYDNEY H. EIGES  
International News Service Staff Correspondent  
HARRISBURG, June 20.—Pennsylvania's delegation and to the Democratic national convention will stand for "Roosevelt and repeal".

Confident that Governor Franklin D. Roosevelt of New York will achieve the Presidential nomination on the first ballot, the Keystone State delegates will lead the fight to place national Democracy on record for outright repeal of the prohibition laws, according to Warren Van Dyke, the state chairman.

Van Dyke's assertions coincided with demands from Democratic leaders in the state, notably David Lawrence, the Allegheny county chairman, that hedging and "straddling" be outlawed when the party of Thomas Jefferson sets itself to the task of writing the prohibition plank for its platform.

A minimum of 60 of the state's 76 delegates will support the resolution on prohibition recently adopted at the state committee reorganization meeting here and will profit it as a model for the national platform, Van Dyke declared.

Briefly, the resolution provides for:

1. The calling of a convention of state delegates to repeal the 18th amendment.
2. Cloaking Congress with specific power to maintain the integrity of all states where liquor is prohibited by local statute.
3. Modification of the Volstead act to permit the manufacture of beer in the meantime.

Pennsylvania vote on the resolution committee will be cast for the repeal plank, according to the state chairman.

The Keystone delegates are prepared to cast all but perhaps a dozen votes for Senator Thomas J. Walsh of Montana as permanent chairman of the convention. Walsh's election will present the Roosevelt forces with their first real test of strength on the convention floor. If they are able to shelve Jouett Shouse, supported by the Smith-Raskob group, Roosevelt's nomination will become a virtual certainty on the first ballot, his lieutenants believe.

Pennsylvania's chairman remained silent on the question of a vice presidential choice. Pre-supposing Roosevelt's nomination, it is understood members of the state delegation would welcome either Speaker John N. Garner of the House or Melvin Traylor of the Chicago banker, as the runningmate of the New York governor.

Van Dyke still holds to the claim that Roosevelt is assured of 691 votes at the outset of the convention and that a last-minute switch in the ballots for "favorite sons" will give the New York governor two-thirds, or the 770 ballots needed to win, on the first call.

The Keystone representatives will caucus Sunday, June 26, a day prior to the convention, at their headquarters in Hotel Stevens. Van Dyke will arrive in Chicago late this week, where he will be joined by Joseph F. Guffey, former national committeeman, from Pittsburgh, to direct the last stage of the pre-convention battle.

### ARE NAMED DLLEGATES

George Gaskakis and George Diacovichis were chosen by the Karpathian Association of New Castle to represent it at its Weirton, W. Va., convention from July 3 to 9, Sunday.

dictated by personal interest or advantage.

We expect, God willing, on the last Sunday of our pastorate, July 31, to briefly state the reasons which have prompted this action. However, in order to disperse any rumors which aroused and ungratified curiosity might generate, and which might reflect upon the very enviable reputation which this church has established, of treating its pastors with every Christian kindness and consideration; we will say this much now, and say it most emphatically. The First Baptist church has treated its present pastor and his family with Christian love, and courtesy and fairness. You have been most charitable in view of our many faults, exceedingly indulgent in the face of our frequent failures, extraordinarily appreciative of our few accomplishments. Let it also be clearly understood that the recent reduction in the pastor's salary, even remotely, with our resignation. Money did not call us to this pastorate and money is not our aim. We have no personal grievance against the church, or its affiliated organizations, or against its members. We deeply love you all in the Lord. We covet for you God's choicest blessings, and for our successor the highest degree of spiritual success.

Our one aim is to please that blessed one who has redeemed us by His own precious blood. Our one ambition is to glorify the worthy name of Him who is the Lord and Head of the Church and the Chief Shepherd of His Flock.

GEORGE M. LANDIS.

## McGuffey Book Memories Come With Grave Marking At Old Bedford Cemetery

With mention of the grave of William McGuffey at Deer Creek cemetery near New Bedford comes memories of the old McGuffey reader days. William McGuffey, an old pioneer from Scotland, was grandfather of William Holmes McGuffey, author of the famous text books.

Honoring his active service in the Revolution, the Lawrence chapter of the D. A. R. visited the cemetery Saturday afternoon and put a Revolutionary soldier's marker on his grave.

Because of the close contact which this country had with the McGuffey family, scores of local people have made a hobby of collecting early editions of McGuffey's school readers. Although no longer in use the books constituted one of the most influential volumes ever published in America. They were popular from the presidency of Martin Van Buren to that of Theodore Roosevelt.

### MARRIAGE PERFORMED FRIDAY, OF INTEREST

A marriage of interest was performed on Friday, June 17 at Ripley, New York, when Miss Anna Dinsmore, daughter of Ed Dinsmore of that place, became the bride of Chester W. McClimans, son of Mr. and Mrs. William Rhodes, of New Castle.

The wedding occurred at 3 o'clock at the parsonage of the Methodist Episcopal church with the Rev. Bruce L. Middaugh, pastor officiating.

The bride was lovely in a gown of white silk fashioned on the lines now decreed, with accessories to match. She carried an arm bouquet of Ophelia roses. Her sister, Mrs. Lyle McGann, was the attendant, and she too was attired in white with shoulder corsage of tea roses and accessories to harmonize.

William Rhodes served as best man.

Immediately following the ceremony a wedding dinner was served at the home of the bride's sister at Erie, Pa. Covers at the bridal table were arranged for twelve, and the center was graced with a large wedding cake topped with miniature bride and groom. Pink and white tones prevailed.

Out of town guests were present from New Castle and Erie.

For the present the couple will reside at the William Rhodes home on Lyndal street. The groom is affiliated with the Shenango Tin Mill here.

### Slippery Rock Man Asphyxiated

**World War Veteran Succumbs To Monoxide Poisoning While Repairing Car In Garage**

Ray P. Wilson, aged 47, World War veteran and proprietor of a service station on Franklin street, Slippery Rock, was the victim of carbon monoxide poisoning Sunday afternoon, while he was repairing his automobile in his garage.

About 2 o'clock Mr. Wilson went to the garage to do some work on his car and about 5 o'clock Mrs. Wilson went out to call him to his dinner and found him lying near the exhaust pipe of the car, and the position in which he was lying would indicate that he was trying to reach the large front doors of the garage. Aid was summoned but apparently he had been dead for some time. The Butler county coroner, Dr. M. E. Headland, pronounced the death accidental.

He had the large doors of the garage closed but there was a small door at the front of the garage open, and when Mrs. Wilson went into the garage the motor was still running.

Mr. Wilson was a World War veteran, having been a member of ambulance company A 71, and had seen overseas duty. He enlisted at New Castle April 5, 1918, and was discharged September 27, 1919. He owned and managed a service station in Slippery Rock, was well known and most highly respected. He was the son of Mr. and Mrs. Henry Wilson, his father having been president of the First National bank of Slippery Rock for many years prior to his death.

He is survived by his wife, Mrs. Ethel Thorpe Wilson, and two daughters, Louise and Ruth, and a sister, Mrs. William Welsh of Jefferson Center.

Funeral services will be conducted by members of the American Legion Tuesday at 2 p. m. in the First Presbyterian church of Slippery Rock, of which he was a member. Interment will be made in the Slippery Rock cemetery.

## TWO SIDES TO BACK TO THE FARM IDEA

WHEN doctors disagree what is a poor layman to do? From time to time important business leaders have urged the unemployed to go into the country and try their hand at agriculture.

Indeed, the "back-to-the-farm" movement has been regarded as one of the things certain to help us out of the prevailing depression. But there is another side to this subject, and it has been presented by George W. Schuyler, Overseer of the Pennsylvania State Grange. At the recent meeting of the Berks Agricultural Extension Association he warned his hearers against the overemphasizing of the "back-to-the-farm" idea.

"There is too much of this kind of talk," he was reported as saying, "and there is danger of doing more harm than good with it. Unemployed city men dispose of their properties, and with their last few dollars and some big ideas engage in farming. What is the result? In a short time they lose everything. For that reason we should discourage these movements."

Generally speaking the "back-to-the-farm" movement is one that deserves encouragement, but much depends upon the quality of the men who take up farming and the seriousness with which they undertake the experiment. It is foolish to imagine that men who have never been on a farm in their lives can go to one and tap the ground with a magic wand and find prosperity. It is not quite so easy as that. It means intelligence and it means untiring labor. It means long hours and sometimes severe struggles with the forces of nature. As a rule, the men who succeed on the farm are the kind of men who can succeed in anything if they have half a chance.

The soil holds out possibilities for the unemployed; but each experiment must rest on its own merit; and the city man who goes to the country must go with this eyes wide open and all his senses on the alert.

## THE SILLY SEASON FOR POLITICS

The St. Louis lawyer who is seeking a Democratic nomination for the U. S. Senate, and whose platform calls for the payment by the federal government of \$720 a year to every citizen of the country, with \$240 extra for each minor, serves to remind us that the political silly season is about to open in earnest.

Every campaign always brings to light a few candidates who are willing to promise the moon itself in their appeals to the voters; but it is evident that this year is going to give us an unusual number of them.

The voters are dissatisfied, restless; they want an improvement in their condition very badly, and when they feel that way the ordinary politician outdoes himself in making promises. Probably no one will go any farther than this St. Louis candidate—it would be almost impossible; but there will be a lot of campaign promises hardly less fantastic than his.

## RETAIL TRADE HOLDS UP

Many phases of this depression have no parallel in preceding economic crackups, one of these phases being the surprising extent to which retail trade in the nation, computed on a ton basis, has held up.

The dollar's buying power has advanced from 105 to 150 since 1929, and during this same period the dollar volume of trade has declined from 110 to 75. An adjusted index of retail trade, reduced to tonnage volume, would stand at 115 for 1929 and 112 at the present time. A remarkably slight decline.

Economists expect early relief for the industries producing raw materials because of this steady continuation of buying on the part of the consumer. The return of these industries to a more normal output must result from this steady withdrawal of finished goods from merchants' shelves.

If the retail trade can hold prices down to the point where the public will continue to buy at the present rate, there will be sufficient demand upon industry for replacement merchandise to warrant a general resumption of operations on a large scale. In that direction lies relief for idle business and idle workers.

## THE "CASUAL" DRIVER

Fast driving was first blamed for the large number of highway accidents. Then someone observed that those who drive with the tempo of a funeral carried a traffic hazard by causing congestion and filling the driver behind with that rage of impatience where dangerous chances are taken without thought of the danger. Without discounting the human element, traffic authorities for several years have been working on the relatively new theory that mechanically defective motor vehicles are the chief offenders, against highway safety.

Recently the high accident rate on Sundays and holidays has suggested to traffic engineers that it may not be entirely attributed to the correspondingly greater congestion. The resultant investigation singled out the "casual" driver.

The "casual" driver is one who uses his car extensively only during week-ends and on holidays. He is fatigued when he starts and becomes more fatigued as the trip (often long) progresses and because of lack of daily experience at the wheel is unable to properly judge speed and distance.

It is very probable that many head-on collisions, wrecks where one car has side-swiped another and cases of lost control are due to fatigue and inability to judge speed and distance. And if there was ever a time when driving demanded skill it is in this day of good roads and high-speed cars.

A Pain In Schopenhauer  
How Much Do Men Smoke?  
And What My Cat Said

By MARSHALL MASLIN

Schopenhauer, who wasn't a very happy mortal, insisted there was no real happiness in the world. All happiness, all peace, thought he is merely relief from pain. A tooth aches intolerably. We go to a dentist. He removes the tooth or he repairs it and the pain is gone and we are happy. . . . We are weighed down by regret or humiliation. We go to the country and find it beautiful and we forget our troubles, and are happy. . . . Our natural state is misery, with interludes of the forgetfulness.

That's what the philosopher said. . . . But I don't believe it. I remember another man who said "I tried very hard to be a philosopher but cheerfulness kept breaking through." Schopenhauer had a pain inside of him and built a philosophy around it. Other people build a more cheerful philosophy around happiness.

I heard a woman say, "My husband smokes incessantly." He denied it. A man has three versions of his smoking. One he gives to his doctor. A second he gives to his wife. A third he gives to himself. . . . Not one of them is an exact picture of the true. . . . The only man who exactly knows how much he smokes is the man from whom he buys his tobacco.

In a store I heard a woman introducing her friend to another older friend. The third woman said: "I've always hoped to meet you some day. I've heard so much about how nice and how bright and how charming you are."

I stared. The young woman looked "nice." I couldn't tell her "bright" she was, and perhaps she was "charming." One fact is sure—she looked pleased.

Some people can say such things easily. Other people may think them but can't get the words out of their mouths. It may be "gushing" but it doesn't make enemies.

The cat came along and leaped gracefully to the arm of my chair. I thought he wanted to purr and sleep.

He didn't. He wanted to talk. He said, after a while, "I know what you human beings think about cats. You think we're cruel and self-centered, and not very bright. You think we're selfish and that all we care about is sleeping and eating and running around nights. You'd like us better if we did tricks, and dogs do, if we wagged our tails and fawned upon you and flattered you all the time. Why can't you accept us as we are?"

"Listen cat," said I. "You're mistaken. I like you just as you are. I wouldn't have you changed in the slightest. I like you as a little, healthy, natural, splendid animal that is just himself and not a performer at all. Is that satisfactory?"

"Yes," said the cat "and I'm happy to know you feel that way." And he went over and fell asleep by the fireplace.

## Brookhart's Defeat Is Laid To Criticism Of Policies

Failure To Support Constructive Legislation And Lack Of Harmony With Existing Parties Are Charged To Iowa Legislator

"Signs of the times," are seen by the country in the primary defeat of Smith Wildman Brookhart, senator from Iowa. Lack of patience with his opposition to constructive legislation, and with his extreme independence are pointed to as factors in failure to obtain renomination. His influence with agricultural interests is held to have been weakened through increased public attention to costly legislation. The charge of nepotism also receives some public attention. The successful candidate is Henry Field.

"Dressed up as a champion of the plain people against the dragons of this, that and the other, he no longer represented Iowa, but a tendency and policies which Iowa only wanted one good straight look at to repudiate," declares the CHICAGO TRIBUNE (Ind. Rep.). As viewed by the SCHENECTADY GAZETTE (Ind. Dem.), "campaigning in his own state as an ultra-progressive, he had voiced some governmental schemes of marked instability at Washington, while actually falling far short of insuring against reactionary administrations." The Gazette thinks "it is doubtful if he could have won any following to his proposals."

Denunciation of the "interests," that once came in so handy to rally the voters, fails to register, "in the opinion of the BATON ROUGE AD-VOCATE (Dem.), while the SAN JOSE MERCURY HERALD (Rep.), calling him "the standard bearer of Populism," concludes that "the agrarian radicalism that he stood for offered no remedy for existing economic ills." The SIOUX FALLS ARGUS-LEADER (Ind. Rep.) attests that "at no time has he turned his hands toward constructive accomplishments for the people he was supposed to represent," while the NEW ORLEANS TIMES-PICAYUNE (Dem.), believes that he "never has been cured of his persuasion that government could work, by process of lavish appropriation or regulatory device, miracles curative of almost every farm and economic ailment, no matter what its cause."

"The people are learning rapidly to differentiate between ballyhoo and good business," says the TOLEDO BLADE (Ind. Rep.), and the APPLETON POST-CRESCENT (Ind.), sees evidence that "in the face of hardship, agriculture turns conservative." The JANESVILLE GAZETTE (Ind. Rep.) declares that "the public has all it can stand of rascals and reformers, and only in positions" and that "all the remedies for ills that Brookhart has had come to naught when the crisis arrived." The ROANOKE TIMES (Dem.) recognizes sentiment that Iowa "was tired at last of Brookhart's narrow and fanatical opposition to Wall Street and big business, and decided in favor of more conservative representation at Washington." The YOUNGSTOWN VINDICATOR (Ind. Dem.) believes that "The Progressives who followed Roosevelt have too often been mere Populists masking as Republicans, and for many years they have formed such a solid block of malcontent and dissidents refusing to work with either Republicans or Democrats, that they have been a serious obstacle to good government." The COLUMBUS OHIO STATE JOURNAL (Ind. Rep.) "cannot recall a single major, much less constructive, movement Brookhart has ever sponsored."

"It was a sensational upset," according to the OMAHA WORLD-HERALD (Ind. Dem.), "for it was the defeat of one of the most prominent of the little coterie of insurgents who have held the balance of power in the Senate for the past decade." But Brookhart's defeat is noticed from the voters that they are no longer to be satisfied with a senator whose only claim to distinction is that he is opposed to nearly everything. The insurgents, the exponents of revolt, have been as incapable of formulating policies as have been the ultra conservatives.

Washington needs a new and more earnest and more intelligent type of office holder. The first step in placing that type in power is to retire such men as Brookhart."

"Everybody is free to make his own analysis," advises the DES MOINES TRIBUNE (Ind. Rep.), "but some of the factors that certainly need to be discarded are these: (1) The nepotism charge against Brookhart was effective. It put him on the defensive for the first time in his political career. Even the fact that others in Congress have been, in greater or less degree, guilty of the same practices, did not count heavily. A reformer, whether this be fair or not, is likely to be judged a trifle more severely than one whose chosen role is not reform. (2) In this period of economic trouble the public tends to oust the 'ins.' The public's dissatisfaction with the 'ins' seems to extend to the protest-ers—both the reformers and the 'ins' have been unquestionably re-sult-getters. (3) The views of Senator Brookhart may have come to be regarded, not only among conservatives but also among some groups of liberals that hitherto have been benevolent toward him, as too extreme. And his tendency to simplify every issue to a struggle between good and evil, with Wall Street invariably present as a personal devil, perhaps got monotonous. (4) Field proved to have an astonishing appeal to the voters. Quite likely even Field himself was surprised by his showing. Part of his strength unquestionably came from voters who simply preferred him to Brookhart. But most of it derived from Field's own 'folky' character, his personal

qualities of simplicity and friendliness, and belief in his sincerity. The DAVENPORT DEMOCRAT (Dem.) offers the judgment: "That Brookhart is no longer wanted by the majority of Iowa Republicans as their representative in the United States Senate, is only too plainly evidenced in the vote at the primaries. That in itself shows he has lost his popularity and his hold on the Republican party."

The effect of Brookhart's relatives being on the federal payroll is emphasized by the DANBURY EVENING NEWS (Ind.), the ROCHESTER TIMES-UNION (Ind.), the TEXARKANA GAZETTE (Dem.), the COLUMBIA (S. C. Record (Ind. Dem.), the MIAMI DAILY NEWS (Dem.) emphasizes the effect of the radio on the fortunes of Brookhart in the statement: "Henry Field has a broadcast station of his own. From the first days of radio the voice of Henry Field has been beaten Brookhart."

The rural discontents worn out? Has Henry Field, with his radio, out-discounted Brookhart himself? Senator Arthur Capper holds Kansas in the hollow of his farm papers. Have we now our first senator by radio?

After thirty-five years, some person has a change of heart and a prick of conscience, which has prompted the payment of \$2 for ten cents toys taken from Lynn and Leedy's jewelry store in Wabash, Indiana.

The money was recently sent to James Lynn, one of the owners of the store. One dollar was for him and the other for his former partner, A. W. Leedy, now residing in Arcadia, Florida.

The letter mailed at Huntington, Indiana, said the money was being sent "in settlement of two ten cent toys taken from your store."

Don't, isn't it true that while you paid with your sons you don't make much effort to be companionable with your daughters?

You don't encourage your girls to talk over their affairs with you. You'd like to have a daughter a confidante but you carry a certain reserve in your attitude toward her and she is almost afraid of you.

As a result you hide behind a crust and both of you draw within your shells in the presence of the other. If you have been fairly kind and generous with her and to other members of the family, perhaps your girl thinks you are the finest man in the world, and she is just a bit in awe of you, nevertheless.

She would be happy if she thought you understood the modern girl.

She's like to help you solve the young girl's viewpoint but she thinks you have a preconceived view.

You must loosen up a bit and visit with her in such a way that she feels your sympathy and desire to help, by understanding.

## Eucharistic Congress At Dublin Opens

Reverent Splendor And Color As 31st International Session Begins

PAPAL LEGATE GIVEN HONOR

(International News Service) DUBLIN, June 20.—Reverent splendor and color obliterated all else in Dublin today as half a million pilgrims from all parts of the world assembled for the opening of the 31st International Eucharistic Congress.

The congress officially will be under way with the reception of Cardinal Lorenzo Lauri, Papal legate, at the Pro-Cathedral, and tonight a state reception at the Royal Dublin Society will close the first day's program.

Bunting fluttered from every household, rich and poor alike, and in every window was a candle. Nationalism, for the first time in many months, was subjected to something else as only church flags were flown and only the congress colors displayed.

The highest state honor was to be accorded the Papal Legate as his special ship, bringing him from Rome by way of England, sailed into Dunlaoghaire Harbor in the afternoon. A salute of 21 guns was to be fired, while a squadron of 13 airplanes was to fly over head in a cross-like formation, dipping in salute.

Then, as the Cardinal was to be taken through the streets toward the Pro-Cathedral, hundreds of thousands were to line the route in solemn tribute, a state procession was to accompany the Cardinal.

## DEMOCRAT CHIEFS LAY GROUND WORK FOR CONVENTION

(Continued From Page One)

out another Madison Square Garden endurance contest, remain to be determined.

In the headquarters of Gov. Franklin D. Roosevelt, opened today by James A. Farley, there was a map to which the attention of all visitors was directed. It showed 32 state delegations pledged to Gov. Roosevelt, comprising some 566 delegates, with 95 others claimed as "favorable."

None of the other dozen candidates had any such maps in the headquarters that bloomed in all the hotels. The able managers of the other candidates merely assured inquirers that many things can—and usually do—happen in a Democratic national convention, and that it is yet far too early to concede the nomination to any one.

Gov. Roosevelt unquestionably is the advertised star of this Democratic show. But the real prize-donna is one who admittedly has small chance for the nomination, yet may have it in his power to make or break any of them—Alfred Emmanuel Smith.

Smith will reach Chicago Wednesday prepared to make the fight of his colorful life. He is going to be against Roosevelt, and he is going to insist that the platform here adopted vindicate the things for which he stood in 1928.

Anything May Happen. Given such a situation and such personalities anything may happen. On the surface it looks like Roosevelt—but the fighting Democrats have a penchant for knocking down favorites in national conventions, and history may repeat itself in this one.

The Roosevelt people have maneuvered themselves into an awkward position at the outset. They agreed several months ago upon a convention setup which embodied the selection of Senator A. W. Barkley of Kentucky as temporary chairman, and J. P. Morgan as permanent chairman.

Farley said the Roosevelt forces would "go down the line" for Senator Walsh. His contention was that Shouse had merely been "favored" for the permanent chairmanship, and there was nothing binding on the Roosevelt forces to back him.

Mack is Chosen. Farley announced that Gov. Roosevelt will be placed in nomination by John E. Mack of Poughkeepsie, who first put the New York governor in politics by nominating him for the state senate in New York many years ago. Farley also announced that the floor manager for the Roosevelt forces will be Arthur Mullin of Nebraska.

Gov. Albert C. Ritchie of Maryland, who may prove to be the dark horse of this convention, will be nominated by Senator Millard Tydings. He will be seconded by the son of a Democratic president, Richard Folsom Cleveland.

## MRS. MALINOWSKI DIES IN SUICIDE EFFORT; WOUNDS MATE

(Continued From Page One)

back penetrated into the lung or other vital organs.

Shooting Sunday Night. The shooting occurred about 10:30 o'clock Sunday night in the apartment occupied by Mr. and Mrs. Malinowski at 1209 South Mill street. The police were notified immediately and four officers answered the call.

They found on investigation that the former Mrs. Costal and Malinowski had been married four weeks ago in Butler, Pa., and had been residing at the South Mill street since that time.

Malinowski in a statement to the officers informed the officers that his prior address was 226 Wayne avenue, Youngstown, O. He claimed that the shooting had occurred following an argument, the exact nature of which he did not make clear.

According to his statement, his wife was lying on the bed in their apartment, when she secured a 25 calibre automatic revolver from some convenient place and opened fire on him. His back was turned to her at the time.

One bullet went into the right hand corner of the ceiling of the room. A second shot took effect in his left arm and the third in the left side of his back.

Turns Gun on Self. She then turned the gun on herself, shooting herself on the right side of her head about three inches above the right ear. According to the statement of Malinowski he was about to leave the room following the argument, when the shooting occurred.

First knowledge of the shooting was learned by Hazel Ruffenberger, who resides to the rear of 1209 South Mill street.

She heard the shots and went to her door to determine the cause.

She saw Malinowski leaning over the railing at the top of the stairs of the apartment of Mr. and Mrs. Malinowski.

"Bee (meaning his wife) shot me and then herself," was the statement made at that time by Malinowski to Miss Ruffenberger. Both were removed to the New Castle hospital and physicians summoned. The condition of Mrs. Malinowski was serious from the start and she passed away early this morning without regaining consciousness. The condition of Malinowski was reported this morning as being satisfactory.

Following the death of Mrs. Malinowski, Coroner Orville Potter was summoned and viewed the remains.

Left Before Shooting. Investigation by the police developed the fact that Frank Costal of 209 West Grant street, a son of Mrs. Malinowski, and Robert Walsh, also of Grant street, had been at the Malinowski apartment during the evening and had left about 15 minutes before the shooting occurred.

They stated there was no evidence of trouble at the time. The son informed the police, however, that they had been arguing recently about the father (Malinowski) going to work.

An officer found the gun and four empty shells in the room where the shooting occurred. Lew Dosch, according to the police, identified the 25 calibre automatic revolver as the property of Mrs. Malinowski. He said she had had it for some time. She had been housekeeper for Mr. Dosch for some time and up until recently when she married Malinowski.

Mrs. Beatrice Ann Thomas Malinowski was born in Virginia. She had been a resident of this city for many years. She leaves her husband, John Malinowski, and two sons by a former marriage, Frank G. Costal and Warren Bowen Costal, both of this city. Her father, Thomas Thomas of this city, also a number of brothers and a sister.

The body has been removed to the funeral home of D. M. Ritchie on South Mill street. The funeral arrangements will be announced later.

In the case of Dominick Flarinio, charged with assault and battery by Anna Colechchi, tried at court last week, the property of costs which each must pay was reversed in the report of the verdict printed in The News Saturday. The verdict should have read "Dominick Flarinio is found not guilty and pay 40 per cent of the costs. Anna Colechchi, prosecutrix, pay 60 per cent of the costs." The case grew out of a neighborhood quarrel about a water drain.

Commercial Union Plan Is Advanced

Belgium, Holland And Luxembourg Advance Plans For Customs And Economic Union

By ARNO DOSCH-FLEUBOT International News Service Staff Correspondent

LAUSANNE, Switzerland, June 20.—The nucleus of a Pan-European commercial union with a distinct anti-American tendency was launched here today by Belgium, Holland and Luxembourg.

Delegates of these three small nations attending the reparations conference agreed upon a customs and economic union open to all European countries which desire to join.

The delegates are considering a formal invitation to all participants at the Lausanne conference to enlist in the union, which taken in conjunction with the recent unconditional moratorium and outspoken speeches against international payments without equivalent return, appears to have a decided anti-American texture.

Horror Sunday Crowd At Ottawa, Illinois, Sees Three Young Men Killed

### PLANE PLUNGES ONLY 200 FEET

(International News Service)  
OTTAWA, June 20.—Victims of an airplane dive, three youths lay dead today.

The plane which carried them to their death within the sight of a horrified Sunday crowd of spectators at this city's airport was piloted by Harry D. Hill, 26, who five years ago stood trial for the murder of his mother.

Hill had just taken off on a joy ride with his companions—John Marshall, 19, of Berkeley, Calif., and Bert Lorenz, 21, of Streator, Ill.,—when the biplane banked sharply to the left and fell to the ground from an altitude of 200 feet.

Hill and Lorenz were killed instantly. Marshall, an orchestra leader, died a few minutes after the crash.

### Police Vacations Are For But Week

Officers Get But One Week This Year Instead Of Customary Two Weeks

One of the innovations in the operation of the police force this year is the length of the vacations, which the officers will enjoy this year. For many years past, the annual vacations of the officers have been for two week periods. This year, the vacations will be of but one week duration.

Four officers will be off on vacation each week. The vacations start today. The four officers enjoying a vacation this week are D. T. Nelson, Frank Reynolds, Cecil Suber and Carl Lockard.

## Council Hears Umbright Case

Protest Of Councilman Davies On Holding Two Jobs Is Aired

## UMBRIGHT DENIES HE HAS TWO JOBS

Edward Umbright, operator of the streets sweeper, today appeared before council which met in City Hall and following an inquiry as to whether or not he holds two positions, denied such a status exists and resumed his duties as operator of the sweeper.

Last Friday Councilman D. O. Davies told colleagues during a session of council he desired to enter a protest against a man employed by both city and county. He named Mr. Umbright. Davies said Umbright was employed as delinquent tax collector by the county and streets sweeper operator by the city. Councilman Treser said the status did not exist and a motion was presented by Davies to the effect that if such did exist Mr. Umbright should be released from city service. Mayor Mayne said Mr. Umbright should have the opportunity of being heard and the council did not act upon the motion.

**Umbright Attacks**  
Mr. Umbright was requested to attend council session and was present today. After ordinary business had been finished Councilman Treser informed colleagues that Mr. Umbright was present. Upon instruction of Mayor Mayne, the city clerk read the protest lodged Friday by Councilman Davies.

"My stand today is the same as Friday," said Mr. Davies.

"Answer me one question," suggested Mr. Umbright to Davies: "When did you go to work?"

"January," replied Davies. "All right," Umbright declared, adding: "I hold one job." He explained that "I was through work May 1."

"Isn't it true you have been going back and forth?" asked Davies. "No," replied Umbright.

"Didn't you collect about \$60,000 in taxes?" asked Davies.

"No. I claim I have not worked in the position since May 1. I never worked for the county. I was appointed."

"You made the assertion that I would not work for the city," said Umbright to Davies.

"I have nothing personal in this," replied Davies. "I still maintain he draws salary when thousands are begging for work to pay their gas, electric and water bills. I believe it is an injustice. If I had control of this I would settle it."

**Discussion Continues**  
Mayor Mayne interrupted the speaker to explain that "Mr. Umbright, as delinquent tax collector, receives fees and does not draw any salary."

"My protest is on record and it stands," declared Davies.

"Not every one of these men can run the sweeper like Umbright," Councilman Treser said to Davies.

"Oh, I could tell you something about it," retorted Davies.

"I'm satisfied with his ability," Treser asserted.

"In view of Mr. Davies' protest I move it be referred back to Mr. Treser, who is the head of the department," said Councilman Gensinger.

"This does not need a motion," replied Davies.

"I'll second the motion, then speak," said Councilman Hoyland.

"I have no quarrel with Mr. Umbright, but I am opposed to any employee holding two positions. Mr. Umbright states that he does not hold two positions."

At this point Mr. Umbright interrupted Councilman Hoyland to declare: "The records at the courthouse will prove what I say."

"I want Mr. Treser to understand that I am not in favor of Mr. Treser having a man employed who is also employed by the county."

Councilman Davies then questioned Umbright as follows: "Are you appointed for the next term?"

"Yes, but the appointment does not become effective until September," replied Umbright. He said he would not draw fees until then.

**Asks Questions**  
Umbright then turned to council and declared:

"I am a citizen and pay taxes. I want to ask some questions of Mr. Davies."

"Do you know you have 10 or 15 paid firemen who are employed outside? Do you know that at a fire department city electricity is being used to charge batteries? Do you know there was a telephone alarm called into your fire department and it was not answered?"

Umbright asked.

Councilman Davies said he did not know of these things.

"Then you better get on the job," retorted Umbright.

"I'm human," replied Davies.

"Do you want me to go back to work?" Umbright asked of Councilman Treser.

"Sure," was the reply.

Council was then adjourned.

## Hoover Will Let Everett Sanders Run His Campaign

### MAY FORSAKE OLYMPIC GAMES

Plans To Make Very Few  
Speeches, Has Confidence  
In Ability Of New  
Chairman

By ALFRED T. NEWBERRY  
International News Service Staff  
Correspondent

WASHINGTON, June 20.—President Hoover is going to let Everett Sanders, new chairman of the Republican national committee, and the party organization conduct and manage his campaign for reelection. The President will make a few major speeches perhaps in the large population centers, but outside of this he will take no active part in the forthcoming drive to retain his seat.

#### To Stay In Capital

He declared in a public statement that he will remain here and give his "undivided attention" to the duties of his office.

Mr. Hoover also hinted that these duties—his reconstruction program—might prevent him from going to Los Angeles and opening the Olympic games in July.

"I have informed Republican leaders that except for a few major addresses expounding policies of the administration, I will not take part in the forthcoming campaign as my

undivided attention must be given to the duties of my office, the President said.

#### Sanders In Charge

"The campaign will be conducted and managed entirely by Chairman Sanders and the Republican organization."

"It has been settled that the offices of the Republican national committee should be removed from Washington and be established at Chicago and New York. Mr. Sanders will be visiting Washington in the course of a few days to complete these arrangements."

In accordance with the tradition since their beginning that heads of states should open the Olympic games, I had hoped to avail myself of that pleasure and I had also hoped to spend a few weeks at my home at Stanford University, but at the moment this seems improbable as my paramount duty is here."

### Senators Against Economy At Expense Of National Defense

Reed And Davis Oppose Cut In  
Navy Department Ap-  
propriations

By ARTHUR C. WIMER  
Special Washington Correspondent Of  
The New Castle News  
WASHINGTON, D. C., June 20.—The opposition of Pennsylvania's United States senators to governmental economy through reduction of expenditures for national defense was reiterated when both senators voted against slashing the Navy Department appropriation.

In writing the annual Navy Department supply bill, the house of representatives provided for an economy of \$624,000 through reducing the funds for the naval reserve officers and the Fleet Naval Reserve. Through two successive votes, the senate this week struck these economies from the measure and restored the \$624,000.

Both Senators David A. Reed and James J. Davis voted against these

economies and for restoration of the \$624,000 which the house proposed to save.

Both Reed and Davis also voted against slashing the navy funds by ten per cent, despite the fact that a general ten per cent reduction has been applied to the appropriations for the civil arm of government. The two senators last week opposed a similar cut in army funds, and on both occasions the senate refused to apply the ten per cent reduction program to either the army or navy.

In the house, Representative Swick consistently opposed economy through reducing army funds.

### Capacity Crowd At Y. W. C. A. Camp

Camp Eastbrook dormitory is housing this week one of the largest number of campers in its history. In addition to the 24 girls who stayed over from last week, about 50 more arrived Saturday afternoon. These 70 or more girls will stay through next Saturday morning.

Bunks were allotted to the girls Saturday and the interesting camp program was well under way that

evening. The host of eight to 14-year-olds are now acclimated to camp life.

### DOROTHEA FEVER BREAKS RIGHT WRIST

Camps usually have their little mishaps, and an unfortunate one at the Y. W. C. A. camp at East Brook Saturday morning was the fall of Dorothea Fever, daughter of Mr. and Mrs. George Fever, Lincoln avenue, in which she fractured her right wrist.

The pool at the camp had been drained and cleaned and the girls were playing at the bottom of the pool before it was filled again and in running up the incline on the

bottom Dorothea fell against the side wall, bruising her face and fracturing her wrist.

She was given first aid and brought to the city for medical aid.

## Bachelor Supper Honors Pastor

Rev. Rees T. Williams Leaves Today To Take Bride At Bangor, Pa.

A very pleasant evening was spent Saturday at the First Congregational church when the Young Men's Bible Class met to wish Rev. Rees T. Williams "bon voyage" on the sea of matrimony.

This, J. Thomas, president of the class with an efficient corps of helpers had prepared a delicious supper and promptly at 8 o'clock, about fifty members and friends sat down to enjoy the meal. Preceding the supper the class sang several numbers under the direction of Councilman D. O. Davies, with Clifford James at the piano.

At the close of the meal the group adjourned to the Sunday School room where an informal program was carried out with the following taking part: Rev. Williams was called upon to sing "When I Was Young Maggie"; Griff Thomas gave a humorous reading with appropriate remarks; Evan Hopkins a solo, "Love At Home".

The following made brief remarks wishing Rev. Williams all joy and success in his new undertaking: Major Guy L. Wadlinger, Ed Lewis, Maurice Markley, Ivor V. Davis, John Davies, of Homestead, Henry T. Jones, Thos. Grey, John M. Price.

At this point, a wedding rehearsal was held with Wm. Pugh, as bridegroom, Albert Jones, as bride, Thos. D. Thomas, as parson, and Eddie Davies singing very sympathetically "O Promise Me." Dan Hughes, Jr., rendered a splendid solo followed by a solo by R. Thomas "Hold On Johnny". The chorus then sang "Comrades In Arms" under the direction of Prof. Dave Rees of Sharon.

The following were invited guests of the class: Major Guy L. Wadlinger and Maurice Markley. Rees Davies and son John of Homestead acted as master of ceremonies and carried out a pleasant and lengthy program that was enjoyed by all. The well wishes of the class and the whole congregation go with the pastor in his present venture.

## McConnell's Mills Draws Large Crowd

McConnell's Mills' natural scenic splendor, Lawrence county's pride, hasn't lost its magnetic appeal just because its another summer or because there's a depression on. To the contrary, the early-summer attendance based on an average Sunday showing points to a banner visiting season this year.

**Mob Out Yesterday**  
And yesterday's boiling sun rays sent the faithful Sunday pilgrims of nature lovers to the place—to lunch, to swim and to just sit idly by engrossed in the near-to-magic touch of Mother Nature's handiwork.

They came there from Youngstown, Pittsburgh, Butler, Canton—from hundreds of cities and towns outside of New Castle.

If ever the beauty at McConnell's Mills is threatened, you can rest assured that a chorus of roars will be heard in opposition from hundreds and more who find relaxation there from every-day worries and burdens.

**Artist, Pienics, Etc.**  
An artist was one of the vis-

itors who sat amongst the Slippery Rock's stones yesterday, painting slowly the valley's beauty upon his canvas. He was just one of scores who delight to do this each summer.

Further up the creek were family picnic groups dotting the table-lands that border the banks, out to seek relief—just like the rest—from the melting rays of Old Sol.

High up on a ledge across the creek was a band of hikers, determined to climb one of the highest rocks about the place. And they were climbing higher.

Men, women and children—there were all ages—were there, and the average visitor wouldn't have left feeling that the scenic spot was being ignored. Not, perhaps if they'd driven a car thru the narrow roadway jammed with parked cars.

Which, despite the same majestic stone and hill are there, to McConnell's Mills becoming an even more popular retreat this summer—a Lawrence county scenic spot, which every Lawrence countian should know about.

The record is 15,000 feet, set by Spud Manning of Los Angeles in 1929.

Long was taken to a hospital for treatment. He said his head struck the ground upon landing. He was also made ill by the falling most of the first of the 5,000 feet, head-down. Hospital attendants said his condition was not serious.

Long said he would try again in two weeks.

## Capture Four In Robbery Effort At New Brighton

**Gun Battle With Police Ends In Capture Of Pittsburgh Suspects**

NEW BRIGHTON, Pa., June 20.—Four men, three of them from Pittsburgh, were captured after a gun battle with State and local police last night. They are being held with the charge of beating and robbing the night watchman of a local wholesale grocery, trussing up a pedestrian and attempting to escape with a truckload of cigars and cigars valued at \$2,200.

Those held are John A. Mott, 28, owner of truck; Abe M. Miller, 25, and Sidney Wilson, 26 all of Pittsburgh, and Leon Goldberg of New Alexandria. They will be taken to state police headquarters at Butler.

The quartet met by appointment in Duss avenue, Ambbridge and drove to the W. E. Osborn company, wholesale grocers at Eighth street and Fifth avenue. They told John Pardick, 71, nightwatchman, that they had some packages to deliver.

After Pardick opened the warehouse he was struck down. He was robbed of \$292 which he carried. The quartet drove the truck into the warehouse and loaded it with cigars and cigars, police said. While they were at work, Sterli Quivey, 41, a barber, entered the warehouse and was attacked. The men tied him up with a rope and gagged him with a burlap sack.

A nearby resident who heard the commotion notified police. The police rushed to the scene with two state police corporals and another nightwatchman. When they arrived the four opened fire from a raised platform. The police returned the fire.

Mott was arrested on the seat of the truck. Goldberg was captured when he dislocated his right shoulder in an attempt to escape. Miller and Wilson were caught in a garage as they sought to escape in a sedan owned by Goldberg.

Pardick was removed to the Beaver Valley hospital where he is recovering from eight contusions on his head. Quivey was unconscious when freed by police.

A complete set of burglar tools was found in Goldberg's car. Mott told police that he had been hired by Miller to make a trip to New Brighton and that when he met the other three men he was covered with a revolver and forced to accompany them. This is the third robbery at the Osborn Company in three years.

**Pythian Sisters Memorial Program**  
Friday evening of last week the members of the Pythian Sisters, Castle Temple 37, had their annual memorial service, in conjunction with the Knight of Pythias.

The hall of the city building was beautified by the floral decorations with the colors of the blossoms emblematic of the stations and their colors.

The program included solos, "Who Knows" and "I Can Tarry But a Night" by Fred Coates, accompanied by his sister, and a memorial address by C. W. Herman Hess.

The eulogy was given by Mrs. Beatrice Winger and the regular Pythian Sister Memorial service was held about the altar.

The service closed with the members singing "Blest Be the Tie that Binds."

**Ellsworth Vines Is Tennis Winner**  
(International News Service) WIMBLEDON, Eng., June 20.—The 1932 all-England tennis championships got under way beneath a clouded sky this afternoon when Ellsworth Vines, lanky ace of the American squad, took the measure of Jules Du Plaux of France in the opening match.

The American won in straight sets 7-5, 6-3, 6-4, but failed to impress the gallery of tennis enthusiasts and fashionables who thronged the semi-circular stands surrounding Wimbledon's green grass courts.

## Olympic Athletes Pass Through City

**Travel In Style Enroute To Olympic Games In Berkeley California**

Two Solid Pullman Train On B & O. Carry Cream Of College Men

College athletes, many of whom will probably set world records in their respective events, passed thru New Castle at an early hour this morning, enroute from New York to the Olympic games at Berkeley, Cal., which start this month.

They were members of the Intercollegiate Association of Amateur Athletes of America who competed in a meet held Saturday to pick the winners in various events.

There were 14 coaches in each of the two trains, comprising sections two and three of No. 19 on the B. & O. railroad. The first section went through at 3:54 E. S. T. and the second followed at 4 o'clock.

On the trains which they were riding were special "shower bath" cars arranged especially for their benefit. These contain 12 shower baths, hot and cold water, benches and rubbing tables.

As the trains proceed along their course, stop-overs will be made at Chicago and Ogden, Utah, where the athletes will be taken to local athletic fields for setting up exercises and workouts.

Another feature on the trains are air-conditioned lounge and dining cars, which are kept cool and comfortable, and special dining cars, which will go all the way to California with the same crews, who will remain with the athletes throughout the Olympic games, cooking their meals for them after they arrive on the scene of the games.

## Here Comes the Bride!

What is so rare as a day in June without a wedding? You needn't answer but there is a distinct rarity in seeing a girl married by her father. Here is the blushing bride, Miss Jean Lavarack Bowie, of New York, being escorted to the altar at Grace Church by her brother, Beverly. The Rev. Dr. Walter Russell Bowie, her father, rector of the church officiated at the ceremony in which she was united to the Rev. Theodore Hubbard Evans of Amherst, Va.

## HEN HAS EDGE IN MATERNITY ROW

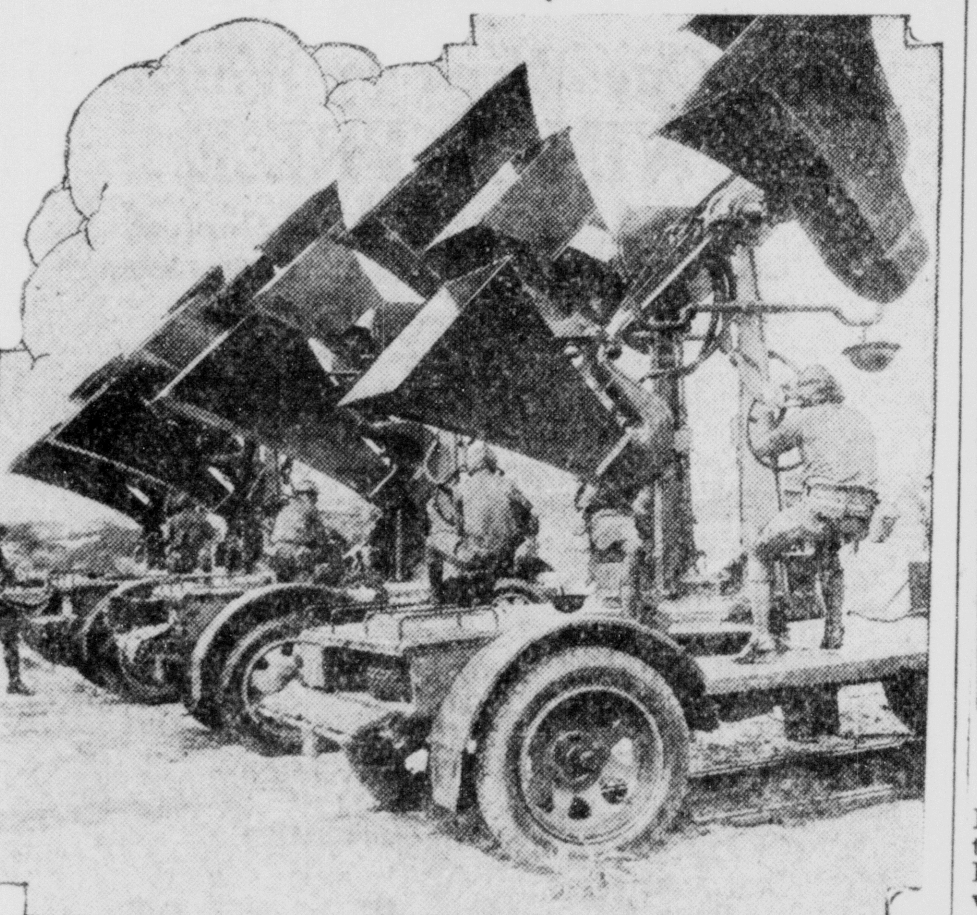

Buddy Black, a freckled-face youth of Birmingham, Ala., is trying to decide who is the rightful mother of the little chick in the foreground. The bantam hen laid the egg and the pigeon hatched it! The decision is about to go to the hen since the pigeon almost strangled the chick to death when she tried to feed it worms, as she would a young pigeon.

## Last Rites for Morrow Maid

The casket containing the remains of Violet Sharpe, the English maid who committed suicide in the home of Mrs. Dwight W. Morrow, is shown as it was borne from the Greenleaf Chapel, Englewood, N. J., where the last rites were held. British Consul General E. H. Gerald Shepherd placed a wreath on the casket on behalf of his government, which has requested an investigation into the girl's death. The burial took place in Brookside Cemetery in a plot not far from the grave of Senator Dwight Morrow.

## Army's Battery of Ears

Modern warfare depends less and less on human agency as progress marches on. These sound locators, the sensitive ears of the anti-aircraft fleet, are shown in operation at Fort Tilden, N. J., where big coastal artillery recently conducted a theoretical defense of New York Harbor. The locators get the sound of the approaching enemy fleet long before the human ear can detect it and the anti-aircraft guns do the rest.

## No Corners to Dust

The ravages of fire drove W. R. Hopkins away from his home at Alameda, Tex., to a nearby water tower for safety. He liked the concrete tower so well that he has converted it into a two-story house. Hopkins says it's the answer to a housewife's prayer, for the house contains no corners where dust can collect. Furthermore, Hopkins lives on what he grows on the nine acres of land surrounding the tower. Now he's a contented bachelor.

## Brains and Beauty

Beautiful but not so dumb just about sums up this American girl, who is one of Austria's foremost business women. She is Miss Nancy Vienna. Recent income tax returns revealed that Miss Wurmser is probably the richest foreign resident in Austria, though only in her early twenties. She commands a fee of 150 shillings (about \$20) per consultation.

## Lost Arm for Birds

His sympathy aroused when he saw a bird nest fall from a tree, Stephen Nedorosick, Cohoes, N. Y., school-boy, attempted to replace it. While so doing his arm came in contact with a high tension wire and was so badly burned that it had to be amputated. In recognition of his act the boy, shown in hospital at Troy, N. Y., had been recommended for the American Humane Society medal.

## German Strong Man

Regarded as the real power behind the German Government, General Kurt von Schleicher, member of the von Papen cabinet, is shown in this new photo as he appeared at a recent cavalry review in Berlin. Speaking of the rumored dictatorship, von Schleicher said: "A dictatorship resting upon armed force in Germany would be a nuisance, doomed to failure."

## As Chilean Government Changed Hands

Made at Santiago, Chile, during the recent coup d'etat, when President Juan Esteban Montero's government was overthrown, this photo shows a military plane flying at a bare 65 feet over the government palace as hostile crowds gathered before the building demanding the resignation of President Montero. Inset are the principles of the revolutionary junta set up to succeed the ousted government. Left to right are: Carlos Davila, former Chilean Ambassador to the U. S., who was proclaimed provisional President; General Puga and Colonel Marmaduke Grove, who has now claimed the Presidency following the forced resignation of President Montero. ## As Wets Stormed G. O. P. Committee Room

The photographer who made this picture was compelled to wade through a wave of wet sentiment in order to operate his camera. The excitement, which is very evident here, was the result of an attempt to storm the room in Republican headquarters at Chicago, where the G. O. P. resolutions committee was formulating its platform, by an enthusiastic throng demanding the repeal of the 18th Amendment.

## 'Twas a Wonderful Day for the Wests

It seems it was the West family's lucky day when the prize exhibits. Left to right are: Betty West, judges at the recent Huntington, L. ## SITE OF OPEN GOLF BATTLE AND DEFENDING CHAMP

Here is the trickiest hole in the 18 which comprise the Fresh Meadow course at Flushing, L. I., where the national open golf tournament will be held. It is the treacherous par-three ninth. Though only 135 yards long, brilliant iron play is necessary to reach the green. This hole is expected to be a stumbling block for many of the hopefuls who seek to wrest the open title from Billy Burke, 1931 champion, who will defend his crown.

Rookie Hurlers In Big League Games Allow Two And Three Hits

### YANKS INCREASE LEAD IN LEAGUE

By LES CONKLIN  
International News Service

NEW YORK, June 20.—Thanks to a rookie, the St. Louis Cardinals today emerged from the slump that hit them in Philadelphia last week.

The rookie, Tex Carleton, pitched a masterpiece against the Giants, allowing only two measly singles and winning 7 to 0.

Almost as brilliant as Carleton's performance was that of Johnny Allen, young right-hander of the Yankees, in holding the White Sox to three hits and winning a 1 to 0 duel from old Sam Jones.

The Yanks increased their lead in the American League race to 7½ games, as the Athletics got no better than an even break in a double bill with the Browns.

Roy Mahaffey lost the first game, 3 to 2, when he dropped Fox's throw to first base in the tenth inning. The A's won the nightcap, 6 to 3, with Earnshaw pitching and Jimmy Fox hitting his 26th homer of the season with two on base.

Changing managers failed to help the Boston Red Sox, who lost both ends of a double bill to Cleveland, 9 to 3 and 6 to 3. The Sox went through the same old motions under a new pilot, Marty McManus.

Indians Advance  
Cleveland went into third place ahead of the Senators, who lost to Detroit, 8 to 5, for the third time in the four-game series.

Hits by Paul Wanner and Trayner featured an eighth inning rally that gave Pittsburgh a 2 to 1 win over Brooklyn. Heinie Meine was the winning hurler.

Silas Johnson pitched the Reds to a 5 to 0 triumph over Boston, yielding only five hits.

The Cubs and Phils were idle.

McGing was the best hitter for the visitors. Coates pitched a fine game for the Flats allowing seven scattered hits and he fanned eight men.

POUGHKEEPSIE, N. Y., June 20.—One of the toughest of all the thirty-seven intercollegiate regattas at Poughkeepsie now lies on the laps of the rowing gods.

After months of grueling over the machines in gym basements, after months of trying to keep the snap of the hands swift and delicate with sleet on the oars or with sweat in the eyes, these young athletes can now do no more than row the best race that in them this afternoon.

Out of it all there is only one sound conclusion; there will be a boat race, with at least six crews capable of fighting to the last inch. It is this observer's guess that the six will finish something like this: Cornell, Syracuse; and Washington, Navy, California, Penn; and Columbia and M. I. T.

Better Tone In  
Stock MarketHigher Prices In Early Trading  
On Market Today

(International News Service)

NEW YORK, June 20.—Better tone in commodities brought higher prices on the stock market today.

Wheat reversed its trend of the closing days of last week and followed Liverpool upward for gains running to more than a cent a bushel. Cotton improved and sugar resumed its upward.

This restored confidence in the speculative community, and leading stocks showed advances ranging from 1 to more than 2 points in the first hour.

Auburn snapped back for a gain of more than 2 points after a setback at the opening. Air reduction was a strong specialty. Leaders included Consolidated Gas, American Tobacco B and Allied Chemical, while the other pivotal stocks like U. S. Steel and American gained a point and more apiece, while the other pivotal stocks like U. S. Steel and American gained sizeable fractions.

American Telephone, ex-dividend \$2.25 a share, was sluggish and juled around Saturday's close.

B. M. T. common was strong despite expectation that the common dividend would be omitted by the directors today. The preferred rose more than 2 points.

Strength in wheat imparted a good tone to the farm implement and mail order shares. Sears Roebuck regained some of the ground lost in Saturday's sinking spell as a result of the omission of the dividend. Case Threshing rose nearly 2 points.

Trading was at an extremely slow pace. Bonds were dull and higher while the dollar improved further.
